10:05 PM

Have just played golf, had a massage, conferred with Bobby after golf as well as with Cong. Pablo Roman on the Free Trade Zone in Bataan and the progress of the Mariveles Port Development and at 9:30 PM met with Joe Maristela who reports that tommorrow Gabby Ong and Vic Sabayog are going to Hongkong and in two or three days go to Tokyo apparently to coincide with the trip of Imelda to Japan. Since these boys are men identified with the conspiracy, we have to take precaution. Incidentally Daza and Vic Sabayog were in Saigon for three ~~days~~ weeks on a mission to buy firearms and explosives. Joe says he suggested they be brought through Jolo.

We have notified Ambassador Urabe of Japan about developments. I personally called him up by telephone yesterday as I had no time to see him personally and then sent Col. Ver in the afternoon. He gave assurances of security for the First Lady.

The Department of Agriculture reinstated one lumber concession I ordered cancelled in the San Mariano Valley, Isabela for violation of regulations. I have ordered an investigation.

The Philconsat has to be helped as it is recovering from financial doldrums. It is a pity since the communications satellite ground station is one of the accomplishments in my first administration.

Imelda has lost about ten pounds for the trip to Osaka and is now in a buzzy whirl having her new dresses redone and refitted. Her nine speeches are all ready but she is not content. I am waiting for her from Cecille Yulo Locsin's house where she went for dinner.
