Just arrived from a conference for the organization of men to counter demonstrate against any of the students in the U.P. This is the Quezon City group.

Before that attended the Don Bosco Training School for boys in Bo Magsaysay, Tondo. I was met by the people with warmth, everybody wanting to shake hands, all smiling and cheering. These surprised the rich people who were around especially the Manila Times Roces family. It warmed my heart, as I saw the look of respect in the eyes of Rufino Cardinal Santos, Andy Soriano Jr the Chairman of the Tondo Youth Foundation, his brother Jose Maria Soriano and the priests and nuns.

Was interviewed in the morning by AP International Services Swinton, whose father with Dr. Hayden I decorated with the Philippine Legion of Honor for their long services to our country.

Then exacted from the loggers ~~the~~ a promise that they would put up a special fund for more policing of our forests. I bluntly told them that I am going to cancel ~~some of~~ the concessions of those who are not complying with the rules and regulations specially on conservation.

This morning I spent some time with the Chavit Singson group from Barrio Ora, Bantay Ilocos Sur. Promising them protection I got some of them to agree to testify and then go home to work on rebuilding their homes. They lost everything but their clothes on their [illegible] being threatened with liquidation.
