MALACAÑAN PALACE
MANILA

Imelda and I started the day right. The night before we had had a false alarm as I started to feel some stomach pains and of course the first suspicion was a heart attack! But gelusil worked well to alleviate the pains and electrocardiography showed a very healthy heart.

So we woke to a bright morning of love and affection.

I met the various car manufacturers — Chrysler represented by Tito Yulo and Caifu of Isuzu - Isuzu, Nissan and Mitsubishi with Emilio See.

Then we met the Korean delegation headed by Speaker Park Chung Too whom I decorated with the Grand Cordon of the Supreme Order of Sikatuna and with the rank of Datu.

Worked out the procedure for following up the talks in the different projects with the various cabinet members especially the Executive Secretary, Sec. Cesar Virata, Budget Commissioner and Sec of Public Works as well as Agriculture.
