MANILA

The circumnavigation of the Red Chinese ship "Anting" refused to come and meet with me after I had met with the Ambassador Lin Chek and his delegation of Nationalist Chinese to receive 3 1/2 tons of vegetable seeds.

This is indicative of the Red Chinese lack of manners and -nutations. They send in 12 1/2 million of relief goods through the Red Cross and then kick you in the face. Before that I had refused to see Antonio Arnaiz, although I could Blanco and the Chamber of Commerce accompanied them as they use this for Propaganda politics. And we and the other groups and we go gabble politics.

This is the final proof of the need to do away with the Maoist Communists in the country.

Had lunch with the World Bank Team Hassan, Dickerson and Van Heyden. We hope to get a single package for roads of $85-100 million in the form of long term loans.

Directed the disposal of surplus Virginia tobacco. And talked to Tony and Rudy Manalo on pulp, housing, steel and the economic atmosphere
