Am writing this at Suite I as I am all alone in the Palace and our living quarters are ghostly quiet when the family is away. Have just arrived from the home of Elvira Franklin who has been driver for J. V. Cruz our ambassador of the Philippines to West Germany. But came home as I am down with sarnigitis. Had to cut my exercise to half an hour after my way and the luncheon-conference with the Congressional leaders on the budget and the legislative program for this special session which resumes on Monday the 22nd and ends the 25th. and I call another special session the following day.
