Malacanang

Have just come from the birthday dinner of Jessie Yulo. She is now 39 but she stopped counting like her contemporaries at 26 (according to her)

I am the IBS rebroadcast of my press interview at 8.00 PM color (up to past 9 PM).

My cabinet meeting held at 12:10 PM at Malacanang Ceremonial

Left Baguio this morning as we had to bring Boy Yulo is down with bronchial asthma with a fever. Imelda came down at 7:00 AM. I waited for the plane to come back and left at 9:40 AM.

The press interview was set for four o'clock but I accelerated it to 12:00 AM so I could attend to my afternoon appointments especially on legislation as the last day of session is Friday.

I spoke on the Djakarta conference, the PPI-Yujitung case and the Cabanos case.

Gen. Ovejera reported to me on the PPI case at 4:20 PM.
