Malacañang

Have just played golf and had a massage at Bonifacio's request. Exercise as I was feeling tired and uneasy. Worked out for about an hour jogging and hitting about a hundred balls.

Met with CINCPAC Admiral McCain who briefed me on Cambodia. He says that Lon Nol has more than a 50-50 chance to survive and keep his leadership and that Pnom Penh is not in danger. He believes that the Khmers would require 6 to 8 months to replace what they have lost. But he believes the Cambodian Army is of no value.

They need military advisers more than arms although there is also need for arms.

There was a joint graduation of the National Defense College and the AFP Command and General Staff College at Camp Aguinaldo where I spoke.
