Malacañang

Have just seen Igorota in its original version complete with Oberito Soliz and others in the nude and some bedroom scenes. It has grossed the most in Thailand and has made 3 million in the Philippines but 1/3 goes to the government in amusement taxes, 1/3 to the theater and 1/3 to the producer. And Lopez Cuneo the producer has not yet recovered his investment. But it presents the mountain people and their picturesque customs and surroundings.

The body of Arthur Garcia one of the organizers of the New Communist Party has been recovered, pointed out by one of two HMBs caught in Manila. Jose Maria Sison may be hunted down by Dante's men who killed Garcia about a month ago. His body was dug up about 1000 yards from the Hacienda Sinsita in Tarlac.

Ordered FOIC Commodore Pupa and the Chief of Coast Guard to exercise jurisdiction over the coral reefs northwest of Palawan. Al Yndengco's group will be given a million hectares. Nationalist China had a garrison there some time ago. We must check this as we will have to explore all there.

The sugar lands in Davao bought by Ricardo Zamora some which were parts of Walters ranch in Davao del Sur have to be developed to supply cane to the new mill that will operate there in December. The PHILSUGIN people say that the soil is 3 times richer than that in Negros.
